Subject: EPA R9 | Request for Work Variance Notification | EPS91302 TO No. 25 (Triple Site RI/FS OS)

Good Morning Mr. Cacciatore,

The EPA R9 is requesting that Aptim Federal Services, LLC provide a Work Variance Notification (WVN) for the subject task order. The basis for this request is shown below:

Per Aptim's discussion with the EPA dated Mon 7/18/2022 additional funding is required for Phillips (0994) and AMD (0982) for work until the current PoP expiration of 12/31/22.

CO Request: Aptim Project Team-

1. Consult with TOCOR Lilian Abreu (415-972-3010/ abreu.lilian@epa.gov) to identify necessary tasks to be performed by December 2022
2. Prepare a WVN to include the required funding for Phillips (0994) and AMD (0982) for work until the current PoP expiration of 12/31/22.

*This WVN request has been expedited to address current funding needs for Phillips and AMD. The EPA will follow up with a SOWA to address additional identified changes this fall.

Action: Please provide your WVN to Contracting Officer Samantha Watts (watts.samantha@epa.gov) at your earliest convenience but no later than **Tuesday August 9th 2022**.

Don't hesitate to reach out with any questions. I look forward to your reply.

Warm Regards,
Samantha Watts
